*Technologies: React, RTK, GraphQL, REST, SCRUM, Git, Redux*

**2023**

**Frontend Developer • Vivino**

*Technologies: React, Ruby on Rails, Go, Slack, Slab, SCRUM, Github*

**2021-2022**

**Fullstack developer • EG Digital Welfare**

*Technologies: Angular, Spring, Hibernate, Jira, Confluence, SCRUM, git*

**2018**

**Internship • Capgemini Sweden**

*In my internship I was building a loginsystem in ASP.NET and also working on an employee booking app.*

## Education

**2021**

**University of Southern Denmark, Odense Denmark**

*At uni I learned to understand how a language is build and the theory behind programming. The main language taught was Java and python.*

**2018**

**Københavnserhvervsakademi**

*This was my first education, and it was more practical learning. Here I mostly learned the basics of programming, web development and embedded development.*
